ABOUT ME

Aspiring Computer Science student with a keen interest in competitive programming, web development, and the transformative field of Artificial Intelligence. Eager to apply my problem-solving, analytical skills, and technical expertise to contribute to innovative projects. With a focus on exploring machine learning and deep learning applications, I am determined to leverage AI for positive impact. Seeking opportunities to further develop my abilities in the tech industry and contribute meaningfully to projects at the forefront of technology and innovation.

EDUCATION

Ahsanullah University of Science and Technology   2020 - 2024

Bachelor of Science, Computer Science & Engineering   *CGPA : 3.1 upto 7th semester*

PROJECTS

RideSavvy. Implemented an ASP.NET MVC web application (RideSavvy) that serves as an online platform for convenient vehicle rentals in tourist zones.(Github Link)

HMS. Developed functionalities for efficient management of reservation systems, room allocations, and check-in/check-out processes. (Github Link)

Deep Learning for Twitter Emotion Extraction and Classification Developed a deep learning project to predict emotion extraction and classification based on customer Twitter post.(Github Link)

SKILLS

Programming Languages	C++, Java
Back End Development	NodeJs, Express
Miscellaneous	Machine Learning, MongoDB
Front End Development	ReactJS, Javascript, Bootstrap, HTML, CSS
Soft Skills	Team Player, Bias for Action, Deliver results

COMPETITIVE PROGRAMMING

Solved 150+ DSA Problems on : Leetcode Codeforces.

CERTIFICATIONS

- **Intra Aust Programming Contest, Fall 2021**
  Ranked 21st in the programming contest held during the Fall 2021 semester.

- **Intra Aust Programming Contest, Spring 2020**
  Ranked 28th in the programming contest held during the Spring 2020 semester.
